Dear Friends,

Happy Anniversary Norwalk Hospital!

It all began in 1888 when Margaret Cavanagh’s compassion at the scene of a tragic train accident triggered concerned community leaders to take action to help provide care for those in need. Thanks to the steadfast support of neighbors who understood what an outstanding hospital means to the well-being of a community, Norwalk Hospital became a reality in 1893. In the first year, 31 patients were cared for. Today, that number exceeds 315,000!

For 125 years, Norwalk Hospital has been at the forefront of providing quality, compassionate care to the residents of Fairfield County. While much has changed over the years, a common theme resonates – an unwavering commitment to provide exceptional patient care to every person in our community – close to home.

Tonight, not only will we celebrate our beloved Hospital, we will publicly acknowledge the founding families whose vision, determination and foresight helped establish Norwalk Hospital and built a strong foundation upon which we continue to evolve and achieve our dreams.

I also wish to extend my sincere appreciation to MaryGrace Gudis who, over the past year, has tirelessly researched the Hospital’s history – online, in libraries and old files, and through thoughtful personal outreach to many – creating a treasure trove of information, stories and artifacts. We are indebted to her for her commitment and enthusiasm.

While our 125th anniversary is indeed a great source of pride, it’s just the beginning of a new chapter in caring for our community. Thank you for being a part of our history and our future!

Sincerely,

Mike Daglio
President, Norwalk Hospital

Thank you to the staff of Norwalk Hospital for their tireless efforts and dedication to upholding and enhancing our core values – teamwork, compassion, excellence and integrity – to ensure that every day we deliver the highest quality compassionate care.

MaryGrace and Mark Gudis
Congratulations to Norwalk Hospital for providing the highest quality compassionate healthcare to Fairfield County for the past 125 years.

The Whittingham Family is proud to have been part of this journey.

Andrew & Michael Whittingham and Family

From Broadway and regional theater to television and films, James Naughton has won critical acclaim in dramas, comedies and musicals.

He is the winner of two Tony Awards as Best Actor in a Musical, for his portrayal of media-savvy lawyer Billy Flynn in the Broadway hit Chicago (1997) and for his role as a film-noir era detective in City of Angels (1990), which also earned him a Drama Desk Award. He won the 1999 MAC Award as best male vocalist for his one-man concert show, Street of Dreams, presented by Mike Nichols, and recorded his CD, It’s About Time, for DRG records. In 2014, he recorded his Live from Lincoln Center Special for PBS, James Naughton Sings Randy Newman.

On Broadway, he also starred as Willy Brandt in Democracy, and in Whose Life Is It Anyway, and I Love My Wife.

He directed two critically acclaimed Broadway productions: Arthur Miller’s The Price which was nominated for a Tony, and Thornton Wilder’s Our Town starring Paul Newman, which he also shot for Showtime. He has directed extensively in the Berkshires and in Westport, and played off Broadway and in regional theatres for decades.

Naughton’s film credits include Equity, currently at this year’s Sundance Film Festival, Factory Girl playing Sienna Miller’s father, Childless opposite Barbara Hershey, The Devil Wears Prada, First Wives Club, and The Glass Menagerie with Joanne Woodward.

On TV, he starred in Planet of the Apes, Who’s The Boss?, Brooklyn Bridge, Making the Grade, Ally McBeal, The Cosby Mysteries, Damages, Gossip Girl, Hostages, and most recently, The Black List and The Affair, and a few voice-overs.

Jim and his late wife, Pamela Parsons, have two actor children: Keira and Greg. Greg is married to actress Kelli O’Hara. In 2017 Jim and his talented family hosted A Tribute to Pamela at the Westport Country Playhouse – an evening of profound inspiration and musical entertainment which raised over $1 million to support promising new research aimed at the early detection of pancreatic cancer being led by Richard C. Frank, MD, Director of Clinical Cancer Research at Western Connecticut Health Network and Pamela’s devoted oncologist.

We are thrilled to have Jim with us this evening, lending his time and talent once again to Norwalk Hospital in support of the community we so proudly serve.
Heartfelt thanks to The Westport Community Band and Music Director Sal LaRusso for sharing their time and talent with us this evening – a wonderful example of the collaboration and partnership that exists in the greater Norwalk community.

The Westport Community Band

The Westport Community Band, a non-profit voluntary organization founded in 1977, is composed of adult musicians from Fairfield, New Haven, and Westchester Counties, with each member sharing the singular interest in exploring challenging concert band literature, improving individual technique, and creating music as an ensemble.

Under the direction of Sal LaRusso, now in his 30th season as the Music Director of this the sixty piece community treasure, the band performs a wide variety of music, including original concert band compositions, show tunes, marches, pop, and classical transcriptions.

The Westport Community Band’s annual “Play with the Community Band” project has provided an opportunity for area middle school instrumental students to rehearse and perform with the band annually since 1996. Almost one thousand students have participated to date in this highly praised project.

Sal LaRusso, a native of Western NY, holds a Bachelor of Music degree from the Eastman School of Music and a Master’s Degree in Communications from Fairfield University. Following a thirty-four year career as Director of Bands and Jazz Ensembles at Weston High School, Mr. LaRusso retired in the spring of 2014 and now is dedicated to use his experience and engaging personality to enrich the musical lives of all ages of musicians and audiences. Mr. LaRusso is currently a visiting professor at Wesleyan University, where he conducts the Wesleyan Wind Ensemble, while continuing his work two days a week as a beginning band instructor at Cider Mill Elementary School in Wilton, CT. Mr. LaRusso resides in Fairfield, CT with his wife, flutist Candace Channing.
Norwalk Hospital’s
Caring for the Caregiver Program

Proceeds from the 125th Anniversary Gala will be used to fund a Caring for the Caregiver program at Norwalk Hospital.

While a loved one is hospitalized, caregivers remain at the bedside for long periods of time and are often stressed as they attempt to capture information necessary to continue caring for their loved one, post discharge. These same caregivers are “on the job” with others at home and may also work full-time, therefore dealing with their own physical and/or emotional burn-out.

Managed by a full-time social worker, the Caring for the Caregiver program will be a collaborative – and complimentary - resource of information, education, respite, and support for people caring for their loved ones and for our clinicians caring for patients.

Partnering with the social worker will be specially-trained life coach volunteers who will lend a compassionate “ear” and make meaningful connections with caregivers, round on the patient floors to identify caregivers in need, assist with support groups and with educational classes.

Caregiving can be stressful and can lead to physical and emotional burnout. By introducing a formalized Caring for the Caregiver program, we will extend our reach of support to where the caregivers are – by the bedside – which in turn will create a ripple effect of support and caring to staff, patients and the community.

Our goal is develop a collaborative program that will support caregivers during their immediate experiences with us, as well as provide them with a place to turn to when they are back in the community and providing care on their own.
“To address the challenges of today’s healthcare environment, we partnered with BRG to implement a systematic performance improvement plan to transform delivery and value to our patients, resulting in $75 million in financial improvements.”

John M. Murphy, MD
President & Chief Executive Officer
Western Connecticut Health Network

Norwalk Hospital’s
Caring for the Caregiver Program Paddle Raise

As the auctioneer announces a tax-deductible gift level that matches your philanthropic investment in the health of the community, please raise your program and hold it in the air until one of our gala volunteers comes to the table to assist you with entering your tax-deductible paddle raise donation into the online auction site. As gifts are recorded on the site the results will be reflected on the screen thermometers. Payment for paddle raise donations can be made by cash, check or charge at The Gala registration table beginning at 10:15 PM.

A paddle raise gift of...

$25,000 will fund ongoing training for volunteers – the human connection that truly provides caring for the caregivers as an extension of the social worker

$10,000 will fund a year-long support group for caregivers

$5,000 will fund year-long stress management technique workshops (weekly meditation, monthly chair yoga); a kids’ resource library with age appropriate books on illness and death for parents to use; or a lending library with books and resources for caregivers

$2,500 will fund monthly workshops featuring subject matter experts related to caregiving for health conditions such as Alzheimer’s, mental illness, substance abuse, cancer, Parkinson’s, etc.

$1,000 will fund quarterly “Parenting Your Child Through Illness” sessions that are informational and supportive

$500 will fund journals for caregivers; two caregiver workshops; staff wellness mornings on a nursing unit (food, massage therapists and other materials)

Thank you for helping fuel our dreams for this program!

500 - Jump Start
If you’re wondering what an AED is – and why they seem to be located in most offices and public buildings - you’re not alone. In fact, because these devices are now commonly available, more people than ever before are curious about them. So – what is an AED? An AED, or automated external defibrillator, is used to help those experiencing sudden cardiac arrest. It’s a sophisticated, yet easy-to-use, medical device that can analyze the heart’s rhythm and, if necessary, deliver an electrical shock, or defibrillation, to help the heart re-establish an effective rhythm. The AED is designed to be used by the civilian population as well as trained first responders. Nationally, the average response time of the ambulance is 8-12 minutes. The chance of survival is reduced by 10% for every minute the patient remains in cardiac arrest. Having immediate access to an AED and, when combined with the medical care of first responders, greatly increases the chances for survival.

We make a difference by giving back
Praxair proudly supports Western Connecticut Health Network

At Praxair, nothing demonstrates our spirit of giving more than our thousands of dedicated and generous employees who contribute their time, talent and money – combined with grants from Praxair’s Global Giving Program – to organizations and institutions that matter most to them and to our company.

Giving back to our communities is a core value at Praxair. Through Praxair’s Global Giving Program, we have helped support our communities, provide educational opportunities, promote diversity and inclusion, improve access to health & wellness programs and preserve and protect the environment around the world. We provide scholarships to community colleges and technical schools for critical skills that are needed in local workforces. And, we make contributions to organizations and universities to support the expansion of STEM education.

Hey, breast cancer. You spread doubt. WE SPREAD HOPE.

With Memorial Sloan Kettering Physicians at Norwalk Hospital, we offer the most advanced therapies to treat even the most difficult types of breast cancer.

The first thing we treat is a person’s spirit. Because any breast cancer diagnosis can be distressing, regardless of the type. But patients can take comfort in knowing that our unique collaboration provides the most advanced targeted treatment options for even the most difficult types of breast cancer—close to home. And with Memorial Sloan Kettering medical oncologists working alongside Norwalk Hospital’s cancer experts, it’s no wonder hope is growing.
